|-----|------------|------------|---------------------------|--|
|     |            |            | Mm.13020                  | NM_009438 ribosomal protein L13a                           |
|     |            |            | Mm.15085                  | BC002065 Unknown (protein for MGC6156)                     |
|     |            |            | Mm.28149                  | AK013984 unknown EST (GB AW555045)                         |
|     |            |            | Mm.213045                 | BC023908 Similar to heterogeneous nuclear                  |
|     |            |            | Mm.221288                 | BC028949 Similar to RIKEN cDNA 5030624.G23 gene            |
|     |            |            | Mm.1034                   | BC006506 protein phosphatase 2 (formerly 2A), regulatory   |
|     |            |            | Mm.889                    | BC003828 Similar to RAS-related C3 botulinum substrate 1   |
|     |            |            | Mm.30864                  | BC004747 Similar to Kruppel associated box (KRAB) zinc     |
|     |            |            | Mm.196581                 | BC006708 Similar to mitogen activated protein kinase 1     |
|     |            |            | Mm.22435                  | BC003961 Similar to RIKEN cDNA 5730410.D03 gene            |
|     |            |            | Mm.200518                 | BC015245 solute carrier family 6 (neurotransmitter)        |
|     |            |            | Mm.22506                  | BC027314 G7e protein                                       |
|     |            |            | Mm.20491                  | AB041553 hypothetical protein                              |
|     |            |            | Mm.35837                  | AK005111 weakly similar to PP1065 [Homo sapiens]           |
|     |            |            | Mm.22670                  | AK004719 unnamed protein product; putative                 |
|     |            |            | Mm.171547                 | BC026534 Similar to coronin, actin binding protein, 2A     |
|     |            |            | Mm.148782                 | BC010215 pleckstrin homology domain-containing, family A   |
|     |            |            | Mm.59677                  | AK017659 unnamed protein product; hypothetical Serine-rich |
|     |            |            | Mm.14145                  | X03802 Tcell receptor gamma chain                          |
|     |            |            | Mm.22061                  | BC025800 sema domain, immunoglobulin domain (Ig)           |
|     |            |            | Mm.2389                   | L17069 All-1 protein                                       |
|     |            |            | Mm.15479                  | NM_013543 estradiol 17 beta-dehydrogenase B                |
|     |            |            | Mm.27094                  | AK009218 unnamed protein product; NUCLEAR PROTEIN SKIP     |
|     |            |            | Mm.59049                  | AF155346 hypothetical protein                              |
|     |            |            | Mm.21606                  | AB046114 reticulon 3                                       |
|     |            |            | Mm.12193                  | BC003885 Similar to 60S ribosomal protein L30 isolog       |
